Chicago Wins Fifth Game—8-5

WHITE SOX IN RAGGED GAME MAKE SIX ERRORS

Chicago took a victory in the series in the eighth game today by an 8 to 5 score. The game was played in Comiskey park, Chicago, before 15,000 fans. The Sox won the series one game ahead of the Yankees.

The White Sox were in the game and later were in the lead. The Sox were in the lead in the sixth, seventh and eighth innings.

Great Voice of De Lap is Marvel of the Officers

"The small man with the great voice." That is what they call Attorney T. H. De Lap, who is training for an officer at the Presidio these days. Yesterday Judge Hiram Jacobs visited De Lap to talk over some business matters. After getting an officer to accompany him Jacobs set out for the parade grounds.

De Lap allowed ten minutes to talk to his law partner and the judge says that more business was done in that ten minutes than in a whole day under normal conditions. As De Lap approached Jacobs in his khaki uniform the judge admits he did not know him.

"He looks much taller than in street clothes," stated the judge and the health and vigor could be seen in every move. After the two chatted Jacobs asked his officer friend how De Lap is doing. "He is getting along fine" was the reply. "What is his business," Jacobs advised him that De Lap was a lawyer.

"That accounts for it" replied the officer. "They say he has the greatest voice of any man his size in the army. He certainly can give a command louder than any man we have here." Judge Jacobs watched De Lap maneuvering and states that he certainly has made some rapid strides since donning the khaki.

DEATHS OF MULLER AND LYNCH DUE TO ACCIDENT

The remains of Guy Muller, killed by a Southern Pacific locomotive from near Hercules, a day ago, and over the body of a man who died from burns caused by a steam pipe burst on the shipwreck Schofield, were buried today.

The death of Muller the jury found was due to an accident. The jury found that the man was in the center of the track when the train rounded the curve near Hercules. He became confused and stepped from one track to allow a freight train to pass directly in the path of the oncoming passenger.

The jury found in the Lynch case that the man had opened a valve in the steam pipe which allowed a burst of steam to shoot out and scald him. The jury was composed of Isaac Lester, G. W. Hendon, C. C. Hodges, J. G. Bauman and J. E. Roach.

GOVERNMENT GETS THIRTY-TWO OF OIL TANKERS

Thirty-two tankers owned by the Standard Oil, Union Oil and Associated Oil companies are to be commandeered by the government. All of these are now plying in Pacific waters. The gross tonnage which will be requisitioned by the government in the Pacific have about 250,000 tons dead weight capacity.

DRAFT BOARD TO COMPLETE WORK THIS MONTH

Positive that the seventy-seven men needed to complete the draft quota of 286 from this district have been certified by them to the district board and will be held for service by that body the exemption board is now preparing to wind up its business.

Word was received today that the district board is now working on Contra Costa cases and will be ready to certify them in a few days. The local exemption board expects to have all the names of the seventy-seven men before the nineteenth and will then arrange for their departure.

The board has received word that some of the men sent to the camp at American Lake will be turned down. The government physicians are examining at the rate of 2,000 men per day and the per cent of those found deficient is 8 per cent. If this per cent holds good there should be 22 men of the local district sent back. This number can be replaced by the local exemption board without calling any more men for physical examination. The board will have to furnish about 100 men and will have about 200 certified back from the district board.

WILLIAM HERVEY IS CHOSEN HEAD OF STATE MASONS

At the annual election of officers for the Grand Lodge of the Ancient Order of Free and Accepted Masons, who have been holding their sixty-eighth annual communication in San Francisco, William Rhodes Hervey of Los Angeles was chosen for the office of grand master.

Grand Master, William Rhodes Hervey, Los Angeles, deputy grand master, Bradford Webster, Oakland; senior grand warden, Charles Albert Adams, San Francisco; junior grand warden, George E. Rodden, San Rafael; grand treasurer, William P. Filmer, San Francisco; grand secretary, John Whicher, San Luis Obispo; grand lecturer, Thos. J. Baker, Sacramento; grand chaplain, William A. McCormick, Los Angeles.

SUPERVISORS ASKED TO INCREASE COUNTY'S CHARITY APPROPRIATION

which will be made upon them during the coming year.

Larger appropriations for the aid of indigent families with small children and orphanages are especially urged by Dr. Haynes.

In many cases, says the report, lack of sufficient sustenance, particularly milk, is resulting in many children in the state being slowly starved.

The request of the state council of defense to county boards of supervisors is that at least \$14 a month be provided for the care of each homeless or dependent child.

SEVEN FAIL TO PASS DOCTORS AT AMERICAN LAKE CAMP

Word was received at exemption headquarters today that seven of the men comprising the first contingent failed to pass the medical examiners of the government.

Whether these men will be returned here or kept at the camp for other work was not disclosed in the communication from American Lake.

Those who failed to pass are: Luigi Bertelli, George A. Dutra, Hugo Peterson, Alexander H. Gonyer, Mervyn Trowbridge, James Walsh, William Maloney.

Those receiving retail licenses were: F. W. Munday, county line, LaSelle, Caubisens & Navellier, Blake and San Pablo; Bert and J. O. Melberg, Central and San Pablo; Peter Ostergard, Fairmount and Richmond; G. Rossi Bertelli, San Pablo and Potrero; Donisio Ortiz, Lincoln and Liberty; Dominico Galba, Plink and San Pablo; W. T. Skaggs, and J. Lavigne.

G. Rossi Bertelli was granted both a retail and wholesale liquor license.

BOARD PREPARING DESERTER LIST FOR DISTRICT

Another week is to be given a number of men who have failed to appear for medical examination or to leave when scheduled. Unless these men report by the nineteenth they will be certified as deserters and their names will be handed to the Federal authorities.

The board is now preparing the list but prefers to give the men plenty of chance to show that they have been detained for some reason. As soon as the list is finished it will be published in the papers.

NEW CHANCELLOR IS LIKELY WHEN REICHSSTAG MEETS AGAIN

AMSTERDAM, Oct. 12.—A sensational report that Germany will have a new chancellor by the time the Reichstag reconvenes, December 5, is in circulation today. It is evidently based upon a dispatch from Berlin, quoting the Tageblatt as saying that another chancellorship crisis is imminent. The explanation given regarding the resignation of Admiral von Capelle, minister of marine in the German cabinet was that "a man of stern stuff was needed."

85,000 FOR BOMB

MANCHESTER, Eng., Oct. 13.—W. H. Veno, a wealthy resident, today offered \$50,000 to the first British aviator who drops a bomb on Berlin.

BRITISH HOLD TO GROUND GAINED IN FLANDERS

LONDON, Oct. 13.—The British remain in undisputed possession of the ground gained yesterday on the West Flanders front.

The War Office announced today that no German counter attacks were made. The full in the fighting gave the British an opportunity to strengthen and consolidate the new ground, although the work was hampered by the heavy rain which fell throughout the night.

The weather is cold as well as wet. Bad weather and demoralization have been the cause of the inability of the Germans to strike back.

DRAFT BOY SUICIDES

SEATTLE, Oct. 13.—Longing for home and his sweetheart, Millard F.

Goldberg, 23 years old, one of San Francisco's Liberty Boys at Camp Lewis and son of a wealthy capitalist, shot and killed himself in a Seattle hotel, according to advices from the northern city today.

The youth's body was found this morning with a self-inflicted bullet wound in the head.

CHEMICAL PLANT DESTROYED
NEW YORK, Oct. 13.—Fire, believed to have been caused by spontaneous combustion and followed by several loud explosions, early today destroyed the large plant of the British-American Chemical Company, manufacturers of hospital supplies, at College Point, L. I. The damage was estimated at from \$100,000 to \$150,000.

WEBB MOTOR CO. IS DOING A BIG BUSINESS

The Charles R. Webb Motor company, located at 2439 Macdonald avenue, have one of the finest appointed garages in the city and make a specialty of service. And by "service," they mean just that and nothing else. They have experienced men in this department of the business who can do repair work that will give the motorist satisfaction and be of real service in the running of his car.

The Charles R. Webb company is agent for the Velle car, one of the best medium priced cars on the market. Their territory comprises all of Contra Costa county and they are pushing the sales everywhere, for they feel that a man who drives a Velle car is always satisfied with it and that he will advise his friends to drive a Velle, also.

The Charles R. Webb company report that they have lately placed a large number of their cars in the hands of Richmond people in this city and have a number of orders for future delivery. They are doing a good business in both their service and sales departments.

TWENTY-FIRST IS RICHMOND DAY AT SHOW

Richmond will celebrate at the California Land Show on Sunday September 21st while Contra Costa county will join with Napa in observing Tuesday October 23rd as her day. This was decided upon yesterday by the directors of the big show which opened today.

Richmond has an elaborate display of manufacturing products and is making quite a part of the Contra Costa exhibition. Tonight will be San Francisco time to celebrate. The show was given the finishing touches today and is said to be one of the finest ever presented in the metropolis.

PRAYS ON WAY TO BEGIN HIS SENTENCE AT ALCATRAZ

Albert Bateson, only man of the last draft contingent to refuse to go to American Lake, is now in the government prison at Alcatraz along with eight other men, who refused to join the colors. Bateson continues to keep in the spot light.

Yesterday when being transferred from the guard house in San Francisco to Alcatraz Bateson delivered a sermon to the men, advising them to go to the Lake and join the army.

Bateson carried a Bible with him when he visited exemption headquarters last Sunday. He refused to go to the Lake and was promptly arrested. In the city jail he kept up a constant prayer for deliverance. When being examined by the local doctors he kept calling Divine assistance to evade the draft. He is now willing to enter the army and will be sent there as soon as arrangements can be made.

WOMAN VANISHES; LEAVING WRECKER OF HOME

Mrs. Babe Unger Hamrick, who was divorced by her former husband, Edward Unger, a balloonist, more than a year ago, disappeared from her home at 354A Guerrero street San Francisco last Monday.

Edward Hamrick, her present husband, yesterday asked the police to find her. Policeman James Keene reported that Hamrick said his wife may have returned to Unger. Unger is now in the South.

Mrs. Hamrick is twenty. In March 1916, she was the central figure in a sensation at Walnut Creek. At that time she was the wife of Unger. Unger found his wife in company of Hamrick. A fight took place and Unger was severely beaten. Unger claimed that Hamrick used a club on him.

TO MEDIATE STRIKE

NEW YORK, Oct. 13.—The possibility of federal mediation in the threatened harbor strikes, which would completely tie up the port of New York Monday, marked a change in the complexion of the strike affairs today, although the situation remains very acute.

T. R. McClure's advertisement will appear in this paper soon, on 20 and 40 acre tracts in San Joaquin Valley, 15 miles from Stockton.

EFFICIENCY OVERESTIMATED

Since the searchlight of war has been thrown on Germany, the world has begun to discover that the widespread belief in the mental and industrial superiority of Germany is poorly founded; that it was chiefly the result of a well-subsidized advertising campaign; power because backed by the State Treasury and by the over-whelming belief of the German in himself.

In arms the German was admittedly superior and for obvious reasons. He was getting ready for 1914. But in the laboratory, in the factory, in foreign trade and in about every walk of life the German was asserting his super-excellence, and America, being good-natured and profitably busy, admitted it to avoid resentment, because admission is the easy way of getting rid of an annoying boaster.

But the German claim of being the greatest farmer on earth has been examined and challenged by the United States department of agriculture as measured by production per acre at 100 for America, Belgium led the world before the war, at 205, Great Britain came second at 164 and Germany stood third at 155. Third, then is Germany's score while the United States stands fourth—and a bad fourth, we must admit.

But there is more than one way of figuring agricultural efficiency. The acreage farmed per man is a vital matter and the cost per bushel is a vital point. To get a bushel and a half where America gets a bushel, Germany buys six tons of commercial fertilizer where America buys one. This increases the cost per bushel. Moreover, where America produces 100 bushels of produce per farm worker Germany produces but forty-one, and Great Britain but forty-three—that is to say that while the American acre is not doing its share as measured by Belgium, Great Britain and Germany, the American farm worker is more efficient, but more than two to one than the German farm worker.

In America, one farm laborer cultivates twenty-seven acres, while in Germany one man cultivates but seven acres. There is no magic in producing more per acre, where one man confines himself to about one-fourth the number of acres of the other man and uses on it six times the amount of fertilizer.

The American farmer farms for profit, and in America it has been found more profitable to farm the American way, though the American way should give more attention to the acre.

But let it be noted that German farmers in this country—and there are many thousands of them—employ American methods of farming rather than the methods used in Germany.

When we make up our judgment on figures, we should get the facts behind the figures. Figures do not lie, if we know what they are talking about.

We are not at war with Austria-Hungary, but we are sufficiently interested in seeing her walloped to slip Italy a few hundred millions between rounds.

When those twenty thousand American airmen get over the German lines something will happen. About two hundred fliers make up the maximum ever turned loose at one time by any of the allied powers.

STANDING ROOM ONLY

Herbert Spencer clearly foresaw the not distant day when the earth would be filled with inhabitants, when pressure for room would become severe when the scramble for the garden regions remaining, such as Argentina, would be ferocious. And he considered that those living in such time would, looking backward, behold the nineteenth century as the golden age of humanity.

Since Spencer's death, there has been nothing to refute or even disparage his views. On the contrary, events have tended to confirm the forecast. To be sure, the armies of Europe are busily killing men and retarding population, but even that holocaust will not greatly retard the growing stream of population. The percentage of mortality from disease will be greatly lessened because of the advances made in medical science and sanitation.

Just as the Russo-Japanese war taught the world how to conserve life.

Spencer's forecast did not require the mind of a sage; the merit of Spencer in regard to it was simply that his mind was impartial, unprejudiced and non-sentimental.

In the last forty years, in the last twenty-five preceding the war, censuses and estimates show remarkable increase in population. In that period, furthermore, the facilities of transportation, both by land and sea, were improved, that every space that was inhabitable, every gloomy Spitzbergen, was open to colonization, unless colonization was forbidden by military edict.

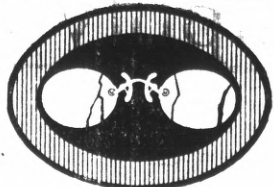

The populations of the world today are not only much greater than ever before, but, barring restrictions of the war period, they are more willing to move less attached to their respective soils. While the United States was subjected to successive waves of immigration in the last century, other countries have been receiving or sending forth swarms.

In forty years, following the Franco-Prussian war, Germany's population had doubled, despite the fact that millions had gone from that country to other countries—particularly the Americas. It was largely because of this crowding in of population that Germany went to war for her "place in the sun." She sought to exterminate other peoples that her own might live the better. She was anxious to enslave others that she might have the fruits of their enforced labor.

For the crowding in of more people than the globe will support, we have no present remedy. War formerly was a remedy, coupled with high infant mortality, but its devastations are quickly repaired. Disarmament, every man becoming a producer and co-operation will do much, but even their results will only be temporary.

Before the United States is twice as old as it is now, the world will have to hang out the sign, "Standing Room Only."

It is not necessary for a man to go around shouting in order to show his loyalty to his country. It does not take a very long time for anybody to determine whether a man is for the United States or against it in this world war. And by the same token it will not take the government long to weed out the lukewarm, the Tories and the copperheads. A day of reckoning is coming and it is not far distant.

"DEAR, Stop Your Dandruff by using Pompeian HAIR Massage."

"Dandruff has made your hair straggly, thin looking and lifeless. Your coat collar is always covered with ugly scales. Stop your Dandruff now. You can. Just look at my hair." The Dandruff is entirely gone and almost overnight Pompeian HAIR Massage made my hair attractive. The success of Pompeian HAIR Massage is in its name—"Massage." It is a treatment, not merely a tonic. The massaging (rubbing) of the scalp wakes up the roots of the hair to new life. This massaging also opens the pores of the scalp to the wonderfully stimulating liquids in Pompeian HAIR Massage. Dandruff goes. Your hair will become and stay healthy, vigorous, attractive. All that is needed is a little massaging once or twice a week. One application shows results. Your scalp will immediately feel clean and invigorated. In one month your Dandruff will be gone. Pompeian HAIR Massage is a clear amber liquid. Not oily. Not sticky. Very pleasant to use. "Greatest treatment for Dandruff in the world," says J. A. Y., Chicago, Ill., "and I speak from experience. My hair before I started using it had gone beyond the ordinary stages of Dandruff and was covered with scales which embarrassed me greatly. I have introduced Pompeian HAIR Massage to my friends." Practically every user says—one bottle shows actual results. Get a 25c, 50c or \$1 bottle at the stores and say the same. Have your barber every now and then apply a careful Pompeian HAIR Massage. Used in over 30,000 of the best barber shops from Maine to California. Made by the reliable makers of the famous Pompeian MASSAGE Cream and Pompeian NIGHT Cream. Adv. 3P

DIZZINESS IS ANNOYING

As Many Richmond People Know Too Well.

When the kidneys are weak or disordering, they fall behind in filtering the blood of poisons. As these poisons attack the nerves, the result is felt in spells of vertigo, just as drunkenness will make a man dizzy from the poisoning of alcohol. Dizziness, headache, backache and irregularity of the kidney secretions are all signs of weak or disordering kidneys and should not be neglected. Use Doan's Kidney Pills, the home-endorsed kidney remedy. Read this Richmond resident's statement.

Mrs. L. E. Clark, 148 Thirteenth St., says: "An attack of the grip left my kidneys in bad condition and I suffered untold agony from lame back. I had severe pains across my kidneys. I felt nervous and never seemed to get thoroughly rested up. I was troubled by shortness of breath and had headaches, and dizzy spells, too. I got three boxes of Doan's Kidney Pills at Niedecker's Drug store and they cured me, making me feel like a different woman."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Clark had. Foster-Milburn Co., Mfgs. Buffalo, N. Y.—Advt.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Red Cross Wants Names of Boys in Overseas Service

The local Red Cross is desirous of obtaining the names of all the boys from this locality and especially from draft district No. 2, comprising that portion of Contra Costa along the water front to Crockett who are now in France, or on foreign government service. The Red Cross is making up its Christmas packages for transmission to the boys across the waters and as the time is now growing short, it is necessary that the names and addresses be forwarded as soon as possible. Even if the address is not obtainable, if the boy is known to be "Some-where in France," send along that information together with the name of the soldier or sailor boy.

Christmas is going to mean a great deal to these young men this year who are so far from home and it is the intention of the Red Cross to remember each and every one with some kind of a useful gift.

Send in your information to Mrs. J. C. Owens. Her telephone number is Richmond 57.

Beautiful 1918 Maxwell Now On Exhibition

Without altering the world champion motor, the famous perfected clutch and transmission or the mighty axles, the Maxwell builders have produced a new wonder car, far superior in construction and in appearance to anything yet turned out by the Maxwell factories—we have this new and beautiful car—come and see it.

The car is larger and roomier, for one thing—the wheel-base has been increased six inches.

It is also a stronger and more rigid machine for the road.

The frame is now six inches instead of three inches deep.

And the body rests directly on this powerful frame instead of on brackets extending from the sides, as in the past.

Do you know what that means?

It means this: The firmness with which the wheels grip the road and the steadiness of the car at high speed give you a sense of security such as you have been able to enjoy before only in cars shackled with a battery of shock absorbers.

This New Car is 50 Pounds Lighter

There's a marvel of engineering for you, friends!

The car is made bigger and stronger—and yet actually lighter.

This means greater ease and comfort on the road.

SO DECLARED MR. R. LEWIS, PROPRIETOR OF THE LARGE JEWELRY STORE AT ELEVANTH AND WASHINGTON STS. IN THE CENTER OF OAKLAND AFTER DRINKING THE FONG WAN HERB TEA, HE WAS COMPLETELY CURED.

His Unsolicited Testimonial

Oakland, Cal., Mar. 25, 1917. For several years I was troubled with NERVOUS ATTACKS, I visited the most prominent physicians in both OAKLAND and SAN FRANCISCO without obtaining permanent results. Finally, when an operation on my spine had been suggested, I quit and began drinking the FONG WAN CHINESE HERBS. After seven weeks I felt entirely well. This was in September, 1916, and up to the present time, March, 1917, there has been no recurrence of the attacks.

DOLLAR DAY RAISE IS SOUGHT BY LINEMEN

Unless the Pacific Telephone and Telegraph company, agrees to increase their wages one dollar a day, five thousand linemen, plant operators, installers, repairmen and electrical workers in Oakland and the bay cities will walk out Monday, according to an ultimatum they have delivered to the company.

D. P. Fullerton, general manager of the company declared today that the employees had made such demand, but said negotiations are still in progress.

The action of the employees followed a referendum taken in all cities on the Pacific coast, which is said to have shown a strong majority in favor of a strike. Despite this, Fullerton believes a walk-out will be averted.

Because of the effect such a strike would have on telephone service on the coast, heroic efforts are being made to avert it. L. C. Brasser, international vice-president of the International Brotherhood of Electrical Workers is handling the situation for the employees.

30,000 TO GUARD

WASHINGTON, Oct. 13.—The national guard, now federalized, will be brought to full war strength at once. The War Department today ordered approximately 30,000 transfers of men from the national army to fill vacancies in the guard.

WITH A STAR BILL ORPHEUM WILL OPEN SUNDAY

Tomorrow marks the opening of the Oakland Orpheum for the winter season. With a renovated and practically rebuilt house, made into one of the most convenient and most beautiful in the east bay region, the theater will operate under a new resident manager, Harry E. Cornell, and under a new booking plan that will bring every act that plays the San Francisco Orpheum to Oakland. During the coming season this will mean some of the greatest attractions in the city.

The bill that opens the theater with tomorrow's matinee has three headliners. Jessie Basely, late star of "In the Bishop's Carriage" will appear in Willard Mack's latest comedy success "Pansy's Particular Punch." Charlie Howard and his company will present "Cured," a futuristic comedy that is a satire on the trend of the times, and has some strikingly original material. Princess Kalama, originator of the whirlwind hula and a Hawaiian dancer of international fame, will be seen in her new offerings. A gorgeous scenic production is this exotic offering.

The famous films showing the German retreat at the Battle of Arras, taken under the sanction of the British Government, has shown by exclusive arrangement of Martin Beck, will also be a feature of the opening bill. These pictures show every detail of the greatest battle in history "close-up." Several operators lost their lives taking the film. The proceeds of the film, brought to America under the Beck management, go to British relief work.

Norwood and Hall, in a neat bit of comedy patter with a strikingly original idea behind it, are one of the joy-actors of the week's bill. William E. ... entertainer with a novel idea will further add to the joyous occasion, and Frank Hart, the comic juggler, Mang and ... master athletes, and "Prophetic," a topical skill with a punch and Era Matthews in the leading role, round out the bill.

GOVERNOR IS GIVEN THE AUDITORIUM FOR HIS TALK

Finding that their original plans for holding the farce "The Spinsters' Return" on Friday, the 19th, conflicted with the plans of the committee in charge of the arrangements for the reception to Governor Stephens, the Brotherhood of American eYomen have agreed to postpone the giving of the farce one night.

The Governor desired to talk in the Lincoln School auditorium and this place had been selected by the Yeomen for their affair. The Governor will remain here the night of the 19th going to San Francisco the following day after he has been shown the harbor sites, etc.

of the game in the sixth inning when he was knocked out by a pitched ball. He was packed from the ground's while the game was delayed ten minutes.

Fourteen hits and six errors were credited to the Sox while twelve hits and three errors were recorded for the Giants. Salie started off well but was forced to give way in the seventh to Perritt. There were no long hits throughout the game. The battle was the most ragged one played to date. Both teams seemed to be nervous and frequent bobbles brought shouts from the fans. The up hill fight which the Sox made had given them the long end of the betting that they will win the series.

As soon as the game ended the teams prepared for the trip back to New York where the teams will meet on Monday.

Cleanliness Is Next to Godliness

So the legend ran in the old-fashioned primers. But we wonder if it has been true in the modern world. What perfect cleanliness meant! In the old days of the steam broom or even the more modern brush carpet sweeper, perfect cleanliness was impossible. Dust removed from the floor spread in clouds in the room, settling on the hangings and the furniture, only to be hurriedly removed from its new location by the "broom" method.
